### **Trinity Regional Eyecare - Minot Center Relocating to IRET Corporate Plaza**

(MINOT, ND)—Trinity Health announced today that plans are underway to move Trinity Regional Eyecare - Minot Center into the IRET Corporate Plaza near Dakota Square Mall. The new clinic is expected to open late this summer. (19,658 square feet)

Dr. Darrel Williams, longtime Trinity ophthalmologist and medical director of the eye department, said the new clinic location will offer patients an improvement in both aesthetics and function from what is offered today. “We’re very excited about this move,” Dr. Williams stated. “IRET has created a wonderful facility. We’re looking at a clinic design that will offer patients greater comfort, convenience and ease of patient flow. Overall it’s going to be a beautiful setting.”

Trinity Health has explored a number of options to expand the eye clinic to accommodate an increasing number of patients and physicians, according to Thomas Warsocki, Vice President at Trinity Health. “We chose to lease space in the new IRET location because it offers patient convenience as well as the ability to consolidate and expand our eye care services in one area,” noted Warsocki.

Trinity Regional Eyecare features clinics in Minot, Williston and Devils Lake.
