Trinity Health Fact Sheet

Mission

Trinity Health is committed to preserving and improving the quality of health to the people we serve.

Our mission is to excel at meeting the needs of the whole person through the provision of quality healthcare and health related services..

Vision

Trinity Hospital will be recognized as the preferred regional healthcare provider. Trinity Hospital will achieve and sustain excellence by:

- Being futuristic and proactive in continuous performance improvements.
- Exceeding professional quality standards and customer expectations.
- Providing sensitivity in service delivery and excellence in skills.
- Efficient utilization of resources.

Values

Committed to the continuous improvement of quality, the employees, medical staff, board of directors and volunteers of Trinity Health uphold the following values:

- **INTEGRITY:** A personal belief that as individuals we uphold our principles and conduct ourselves with honor.
- **PASSION:** Personal commitment to make a difference in providing care for others.
- **ACCOUNTABILITY:** In recognizing our responsibilities we will be accountable for all that we do.
- **RESPECT:** A regard for the uniqueness of the human spirit and the dignity of others.
- **TEAMWORK:** Recognizing the value in and contribution from each part of the whole.

Historical Overview

Trinity Health is a community-based, non-profit healthcare organization, and is associated with the University of North Dakota School of Medicine as a sole sponsor of the Minot Center for Family Medicine. With health services and facilities located across the entire region, Trinity is your source for health care and health education for life!

As the region's preferred provider of medical services, Trinity serves as a referral center for heart surgery, rehabilitation medicine, newborn intensive care, kidney dialysis, lithotripsy, neurosurgery, orthopedics, sports medicine and more. Trinity was initially verified in 1995 by the American College of Surgeons as a Level 2 Trauma Center, the highest level of trauma care available in North Dakota. Trinity's Level 2 status is just one way we demonstrate our commitment to improve the quality of life and health in our communities.

Ophthalmology, Optometry, Low Vision Services

Trinity's Story

The earliest pages of Trinity's story were written in the churches that dotted northwest North Dakota during the late 19th Century. These church leaders long dreamed of a hospital to serve the needs of the Northwest Territory and beyond. During the early 1920s, a group of pastors sketched out plans for a hospital Consecrated To Christian Service in the "Name of The Father, Son, and Holy Ghost" hence the name "Trinity." On April 25, 1922, representatives from churches across the territory gathered at Zion Lutheran Church in Minot to organize the Trinity Hospital Association. Within weeks, ground was broken and \$60,000 was raised for the building of a 30-bed hospital unit, the lower west wing of Trinity's present structure.

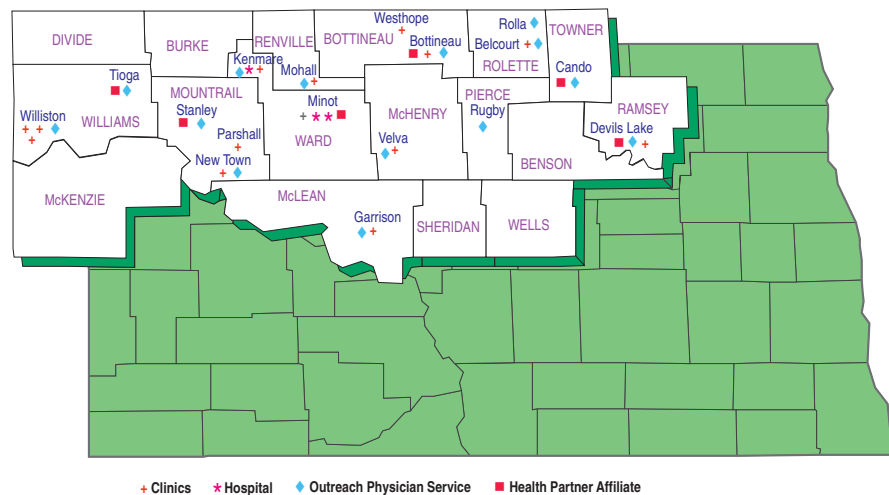

Responding to community needs, Trinity grew and flourished. The early 1970s saw the additions of the Northwest Clinic, now Health Center – West, and the Lutheran Homes, now Trinity Homes. "Trinity" came to signify the three members of our health care family: Trinity Hospitals, Trinity Homes and Trinity Health Foundation.

In May of 2001 Trinity Health embarked upon a new direction for the future of healthcare for Northwestern North Dakota and beyond. With the consolidation of Trinity Health and Unimed Medical Center the dedicated staff of these two outstanding organizations are now working together to serve the healthcare needs of those in our region.

Today, the name Trinity symbolizes our mission: to help each of our customers grow as whole persons in mind, body and spirit.

Trinity Health has evolved into the region's premier health care organization with facilities in several communities as well as partnerships and affiliations throughout the region. Trinity Medical Group is a comprehensive association of primary doctors, specialty physicians and health care professionals serving North Dakota and Eastern Montana. Trinity Hospitals continues to lead the way in technology and procedural advancement with professional and support staff committed to the well being of each individual. Both Trinity Hospitals and Trinity Medical Group are accredited by the Joint Commission on Accreditation of Healthcare Organizations.

The variety and depth of Trinity's services provides customers a smooth continuum of care from a hospital stay to outpatient services; home care to long-term care. Trinity is proud of its achievements, but our pursuit of quality means we will never be satisfied. We will always be searching for a better quality of life for the communities we serve.
