ASSOCIATION

TNCC[™]
TRAUMA NURSING CORE COURSE

An ENA Course

Provided by
Trinity Health Trauma Services

Introduction

The Trauma Nursing Core Course (TNCC) is a one and a half day course developed by the Emergency Nurses Association to present a firm foundation in trauma nursing and to provide nurses with core or basic trauma cognitive knowledge and psychomotor skills that are associated with the delivery of professional nursing care to the trauma patient.

The goal of TNCC is to improve trauma patient outcomes by providing nurses with foundational trauma knowledge, skills, and a systematic Trauma Nursing Process to guide trauma patient care.

Verification of successful course completion is based on passing the written exam and the Trauma Nursing Process (TNP) psychomotor skills station. Verification is valid for four years

Pre-requisites

Participants must be an RN and possess a current unrestricted nursing license to receive verification.

Registration

Pre-registration is required

Participant seats are limited based on instructor- to-student ratios. Seats will be assigned to paid registrants in the order registration fees and materials are received. Cancellations are not permitted after ENA registration or within 30 days of the course.

Pre-course preparation is essential, including studying the 8th edition TNCC Provider manual and completing the mandatory online modules. The Provider manual will be mailed to you approximately one month before the course.

Email address is **REQUIRED** to complete on-line modules and for course confirmation.

ENA is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. Upon successful completion of the course, participants will be given 18.3 CEU credits for nursing.

Mannequins provided by Trinity Health Foundation
